To Whom It May Concern:

I am writing in support of Dr. Roland Maw as Commissioner for Alaska's Department of Fish and Game. I have had the opportunity to work for and with Dr. Maw for the past decade. Dr. Maw's understanding of natural resources combined with his ability to manage personnel, and finances make him an ideal candidate for this position.

A place as large and diverse as Alaska offers many challenges in the management of its natural resources. Dr. Maw has been engaged in the management issues of Alaska's fish and game since the early 1970s. In my experience, Dr. Maw is ultimately concerned with keeping fish and game stocks healthy and vibrant for the enjoyment of all Alaskans.

His experience, training, and credentials make him an ideal candidate for this position. Please feel free to contact me by any means listed in the letterhead.

Sincerely,

A handwritten signature in blue ink, appearing to read 'P. Warner'. The signature is fluid and cursive, with a long horizontal line extending to the right.
