**EXPLORATORY AREAS**

The following sections are designated as **EXPLORATORY**, and will be open to either gear type, with differential fishing periods by gear type as outlined above for purse seine or gillnet gear:

Mainland Districts:

- (NM20) Inner Kukak
- (MM10) Inner Katmai
- (MM30) Alinchak
- (MM40) Puale Bay
- (MM50) Portage Bay
- (SM10) Wide Bay

GHLs and maps of open sections are available at the Kodiak office and in the herring sac roe fishery harvest strategy for the 2023 season. Fishermen are urged to check with their market and test their catch prior to landing herring. Determining if size or roe quality meets processor standards is the responsibility of fishermen and industry. It is anticipated that many small and green fish will be present on the grounds during the initial open fishing periods. Recent fishery information may be obtained by calling the Department's message phone at 486-4559.
