

**Agenda**  
**HWI Science Panel Meeting**  
**Virtual meeting via Microsoft Teams**  
**May 14, 2021**  
**1:00 PM Alaska Time**

The primary goal of this meeting is to review the SEAK sampling plan for 2021. If meeting time runs short, some items may be covered quickly or postponed.

- 1) Approve minutes from December meeting and discuss informally approving the minutes going forward so web updates can be made in a timely manner – Flip (acknowledge Erica’s note taking).
- 2) Review/discuss the 2021 field season with Sitka Sound Science Center – Ron/Chance
- 3) Otolith update: work done, MTAL flood update and path forward – Kristen/Kyle/Chris
- 4) New RRS results: heritability – Kristen
- 5) Funding updates: SeaGrant proposal, 2016 Pink Salmon Disaster Funds – Kristen/Bill
- 6) Manuscript updates: PWS straying paper (published), SEAK chum straying (available online), and RRS paper (ready for submission) – Bill
- 7) Introduce Sam May: recipient of the Cooperative Institute of Climate, Ocean, and Ecosystem Studies (CICOES) postdoc (Charlie Waters-NOAA mentor and Peter Westley academic mentor).
- 8) Additional items.
