

# GCL funding from AHRP

Alaska Department of Fish & Game  
Gene Conservation Lab

March 2016 AHRP Meeting  
Anchorage, AK

# Changes in funding

- Original Plan for GCL: \$450/yr
  - Program management
  - Marker development
  - Population structure of pink salmon
  - Genotyping adults
  - Genotyping alevins
- Concerns over lack of statistical power increased field effort
  - Reallocated funds to field contractor
  - Reduced alevin component
  - Additional funds will be required for program management and genotyping

# GCL funds spent and reallocated in FY 2014, 2015 and 2016

Planned	\$ 1,350,000 (\$450K/yr)
Spent	\$ 795,900
UW contract	\$ 380,000
Lab expense	\$ 415,900
Reallocated	\$ 554,100
